Los Angeles, CA 90012

Dear Supervisors:

**AGREEMENT TO PURCHASE
"TAX DEFAULTED SUBJECT TO POWER TO SELL" PROPERTY
SUPERVISORIAL DISTRICT 4- AGREEMENT 2424
(3 VOTES)**

IT IS RECOMMENDED THAT YOUR BOARD:

Approve and instruct the Chairman to sign the Purchase Agreement of "Tax Defaulted Subject to Power to Sell" property being acquired by the Los Angeles Flood Control District, a public agency pursuant to the Revenue and Taxation Code, with revenue to be provided to recover a portion, if not all back property taxes, penalties and costs on the delinquent parcel and any remaining tax balance to be cancelled from the existing tax rolls; and approve publication of the Purchase Agreement of "Tax Defaulted Subject to Power to Sell" property.

PURPOSE OF RECOMMENDED ACTION

The property described in the agreement may be sold in accordance with the provisions of Division 1, Part 6, Chapter 8 of the Revenue and Taxation Code and with the policy adopted by Board action on November 24, 1970. Exhibit "A" attached to each agreement indicates the legal description and selling price of the parcel.

Upon approval, the enclosed agreement and copies are to be signed by the Chairman and returned to the Tax Collector for transmittal to the State Controller for further approval. County Counsel has approved the agreement as to form.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Approval of this agreement is also in accordance with the Countywide Strategic Plan Goals of Fiscal Responsibility and Collaboration Across Jurisdictional Boundaries. Delinquent property taxes and costs are recovered and limited use parcels are identified for appropriate public purposes.

JUSTIFICATION

The Chapter 8 Agreement sale procedure permits eligible public agencies to acquire "Tax Defaulted Subject to Power to Sell" properties without the necessity of a public auction. The property described in this letter will be acquired by a public agency. The agreement is with the County of Los Angeles Flood Control District. It is the intent of this agency to utilize this property for flood control purposes.

FISCAL IMPACT / FINANCING

Revenue will be provided to the County for apportionment among the affected taxing agencies, which will recover a portion, if not all back property taxes, penalties and costs on the delinquent parcels. Any remaining tax balance will be cancelled from the existing tax roll.

Existing appropriation is available in the current Treasurer and Tax Collector 2004/2005 Budget for publication costs. Publishing in accordance with Section 3798 of the Revenue and Taxation Code is the most cost-effective method of giving adequate notification to parties of interest.

FACTS AND PROVISIONS/ LEGAL REQUIREMENTS

The Chapter 8 Agreement sale procedure permits eligible public agencies to acquire "Tax Defaulted Subject to Power to Sell" properties pursuant to Section 3791, et seq., of the Revenue and Taxation Code.

A summary of the public agency's purchase is attached. This attachment indicates the affected Supervisorial District and the use for which the property is being acquired. Moreover, we have attached copies of the relevant sections of the Revenue and Taxation Code pertaining to the Chapter 8 Agreement sale for your information. County Counsel has approved the agreement as to form. Attached to the agreement are the Assessor's parcel map showing the dimensions and general location of the affected parcel.

The Honorable Board of Supervisors
August 31, 2004

Efforts will be made to contact the owners and parties of interest to inform them of their tax liabilities and the provisions for the redemption of the property pursuant to Section 3799 of the Revenue and Taxation Code.

Section 3798 of the Revenue and Taxation Code mandates notice of agreements to be published once a week for three (3) successive weeks in a newspaper of general circulation published in the County.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Not applicable.

CONCLUSION

Upon approval of the attached agreement forms, the Department will need all original documents returned for submission to the State Controller.

Gentlemen:

TAX AGREEMENT SALES

RECOMMENDATION:

That the Tax Collector be directed to review all requests for agreement sales pursuant to Chapter 8 of the Revenue and Taxation Code and recommend to the Board whether such requests should be approved in whole, in part, or denied.

That the Tax Collector is further instructed to review and recommend the price to be paid for such sales which price, in the absence of special circumstances, shall not be less than the amount necessary to redeem the property pursuant to Part 7 of Division 1 of the Revenue and Taxation Code.

EXPLANATION:

This office has recently completed a review of the policies currently in use with regard to the acquisi-

tion of tax deeded lands by taxing agencies under the authority of Chapter 8 of the Revenue and Taxation Code. This study showed that while present practices are in technical conformity with various statutory requirements, the \$1 per parcel price has remained constant since October 19, 1943.

It is the opinion of this office that the continuation of this nominal price is no longer in the best interest of the County and the other involved taxing agencies. The sale for a minimal fee of properties charged with sizable tax deficiencies results in substantial revenue losses to the County and other agencies.

The nominal fee can also result in requests for acquisition without adequate attention given to actual need by the requesting agency. The result is the removal of additional property from the tax base. If resold later as surplus, the proceeds accrue only to the acquiring agency.

Very truly yours,

THE MISSION

We provide public works services in a responsive, efficient, and cost effective manner.

AN OVERVIEW

The Department of Public Works was formed on January 1, 1985, from the former County Road Department, a portion of the Department of County Engineer-Facilities, and the County Flood Control District. In 1995, capital projects responsibilities and 156 staff members previously assigned to the Internal Services Department were also incorporated into Public Works.

Divided into 21 divisions, the Department has over 3,800 employees in approximately 450 separate job classifications, including professional, technical, clerical, skilled craft, and

unskilled workers. The Department is responsible for the design, construction, operation, maintenance, and repair of roads, bridges, airports, sewers, water supply, flood control and water conservation facilities; and for the design and construction of capital projects. Additional responsibilities include regulatory and ministerial programs for the County of Los Angeles, Los Angeles County Flood Control District, other special districts, and contract cities that request services. A 24-hour Emergency Operations Center is maintained to respond to problems reported by the public and other agencies as well as major emergencies, such as floods, windstorms, snowstorms, earthquakes, etc., and to monitor various Department facilities.

The Department protects property and promotes public safety for those we serve now and in the future. By striving to increase productivity and efficiency while continuing to emphasize and to provide the highest levels of service, the Department looks forward to successfully meeting the challenges of the future through new technology and high standards.

RESPONSIBILITIES AND FUNCTIONS

Flood Control

- Operate and maintain 15 major dams, about 450 miles of open channel, almost 2,500 miles of underground storm drains, 70,000 street drains, about 280 sediment entrapment basins and 218 concrete stream bed stabilization structures, 33 pumping plants, as well as numerous support facilities throughout the County.

Water Conservation

- Conserve each year in Los Angeles County an average of 220,000 acre-feet of local storm water runoff that would otherwise waste to the ocean. This amount, valued conservatively at over \$73 million, consists of direct storm runoff and post-storm releases from the dams. The water flows to 27 groundwater recharge areas, or spreading grounds, consisting of unlined river bottoms and spreading basins and pits. During non-storm periods, the artificial recharge program is supplemented by spreading almost 75,000 acre-feet of untreated imported water and 50,000 acre-feet of reclaimed water.
- Operate and maintain three seawater barriers in Los Angeles County. These barriers inject treated imported water into the freshwater aquifers along coastal areas to prevent the intrusion of salt water inland. The aquifers protected by the barriers supply nearly 20 percent of the water used in Los Angeles County.

Roads

- Maintain over 3,100 miles of major roads and local streets in the unincorporated areas and over 1,700 miles in 22 incorporated cities. This includes over 1,300 signalized intersections, 6,000 miles of striping, 170,000 traffic signs, 5,000 street lights, 78,000 street name signs, as well as pavement markings, painted curbs, and raised traffic markers.

- Provide a full range of road services, including street sweeping, pothole patching, and tree trimming.
